Route4Me Visual Identity Specification

Logo

Route4Me Symbol

The symbol is composed of simple geometric shapes.
Note the consistency of shapes, sizes, and spacing.
This geometry must always be maintained.

Symbol construction

Route4Me Logo

The logo parts have very specific placement relationships within each other. The alignments create a solid lockup. Knowing these spatial relationships is critical for maintaining consistency across the brand.

Logo on Backgrounds

The logo should be used only on white or blue backgrounds.
Avoid using logo on photographs unless the logo sits
on the white area of the image.

Logo Clear Space

Ensure there is adequate space between the logo and surrounding elements. The clear space around should always be greater than or equal to the 1/3 of logo height.

Alignment

Follow the spacing and alignment specifications below when locking the Route4Me logo up with a series of affiliated logos. Partner logos should be aligned to the optical baseline of Route4Me logotype.

Clear space equals the width of one Route4Me symbol

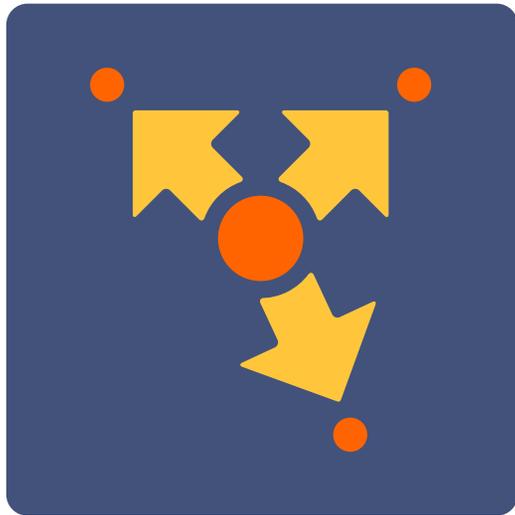

Partner logos are aligned to the baseline of the logotype

Google and/or Amazon logos are displayed for demonstration purposes only. Their placement near the Route4Me logo does not suggest a partnership or business relationship exists.

Mobile App Icon

An icon may have different shape on different devices. Ensure there is adequate space between the logo and icon shape edge.
